

Make comparison between concentration of income and concentration of saving!

Solution.

The data of saving

$$z_i = \frac{f_i x_i}{\sum f_i x_i} \cdot 100$$

T Fts.	f_i	$f_i x_i$	g_i (%)	g_i' (%)	z_i (%)	z_i' (%)
0-25	5458	68225	75,8	75,8	23,3	23,5
25-100	1296	81000	18,0	93,8	27,7	51,5
100-500	425	127500	5,9	99,7	43,6	94,6
500-1000	21	15750	0,3	100,0	5,4	100,0
Sum:	7200	292475	100,0			

The data of income:
