# Pre-installation

---

You need to have a working copy of Metatrader 4 Client Terminal in order to install and run Dynamic Sync Trading System.

Metatrader 4 Client Terminal is free software from MetaQuotes.

Metatrader Client Terminal last version can be downloaded free directly from the producer:

[Http://www.metaquotes.net](http://www.metaquotes.net)

You can open a free demo account directly at metaquotes.net or with your preferred broker.

Please refer to the MT4 user manual for more information.

**NOTE: when you install the MT4 client terminal in your PC, take note of the installation path. You will use it to install Dynamic Sync Trading System.**

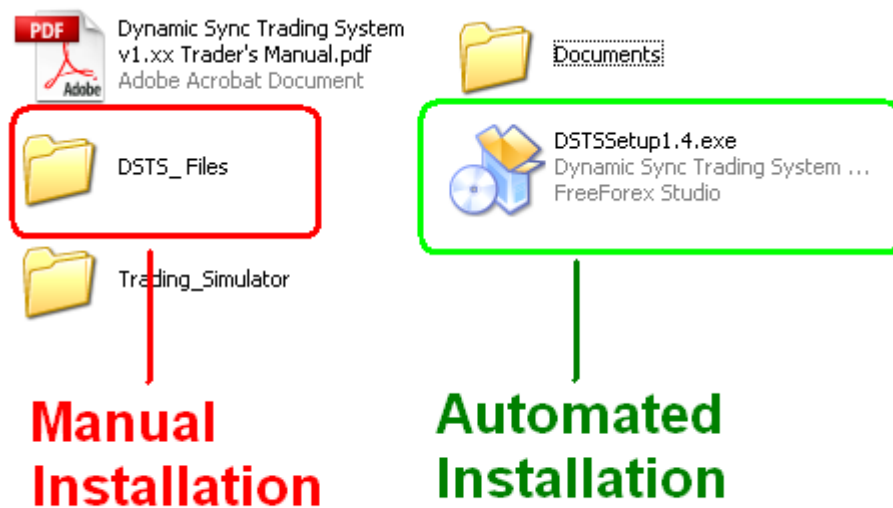

# Installation procedure

---

Dynamic Sync trading system can be installed manually or automatically.

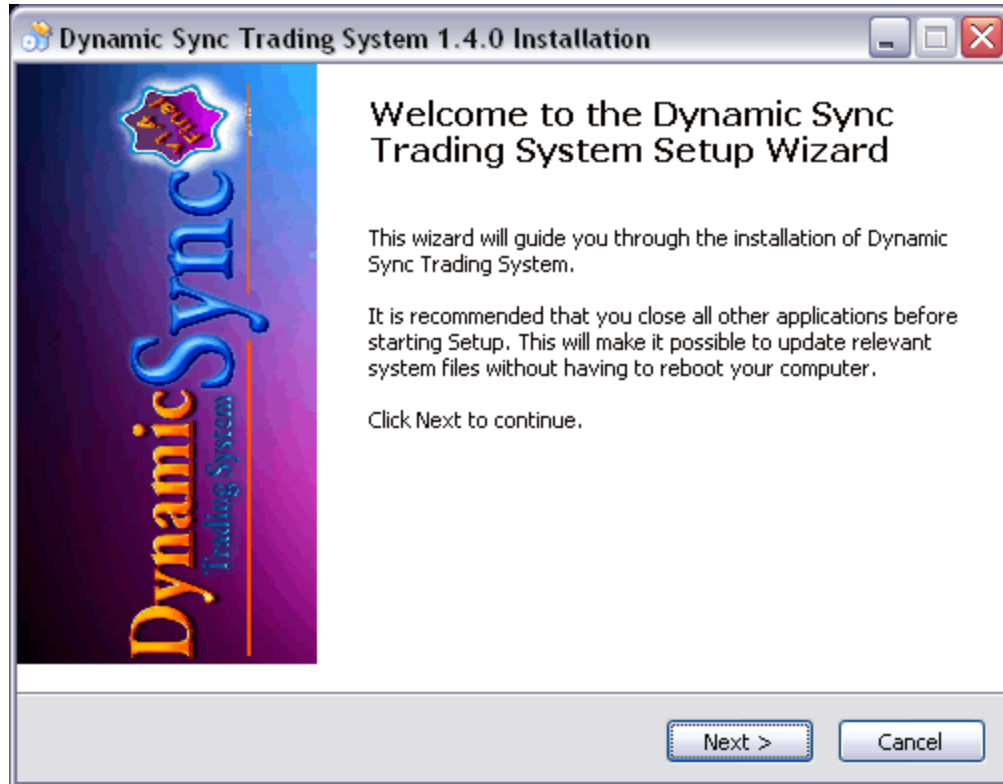

For manual installation, please refer to “**Install.pdf**” file inside the package.

For automated installation, run “**DSTSSetup.exe**” file.

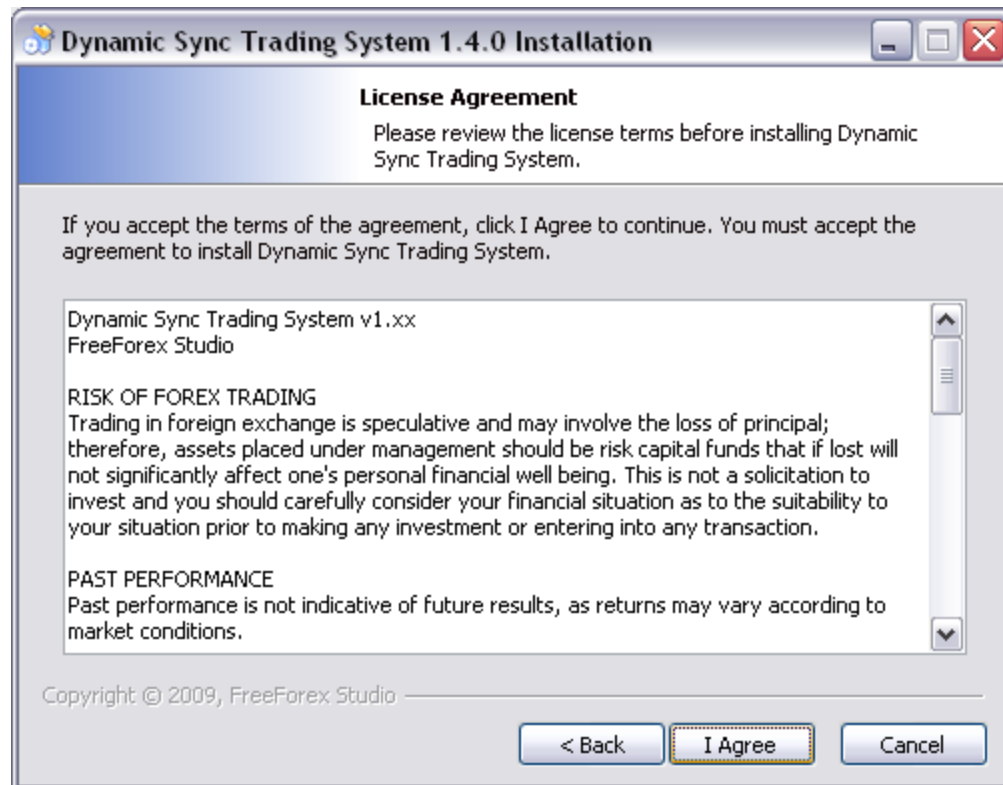

Follow the instruction of the installer Wizard.

On the first screen, click the “Next” button if you want to proceed with the installation.

In order to continue the installation procedure, you need to read and accept the License Agreement.

Read carefully and click "I agree" if accept to continue, "Cancel" will terminate the installation procedure.

You need to insert the password for the installer in order to complete the installation progress.

Password for the installer is sent in the purchasing email.

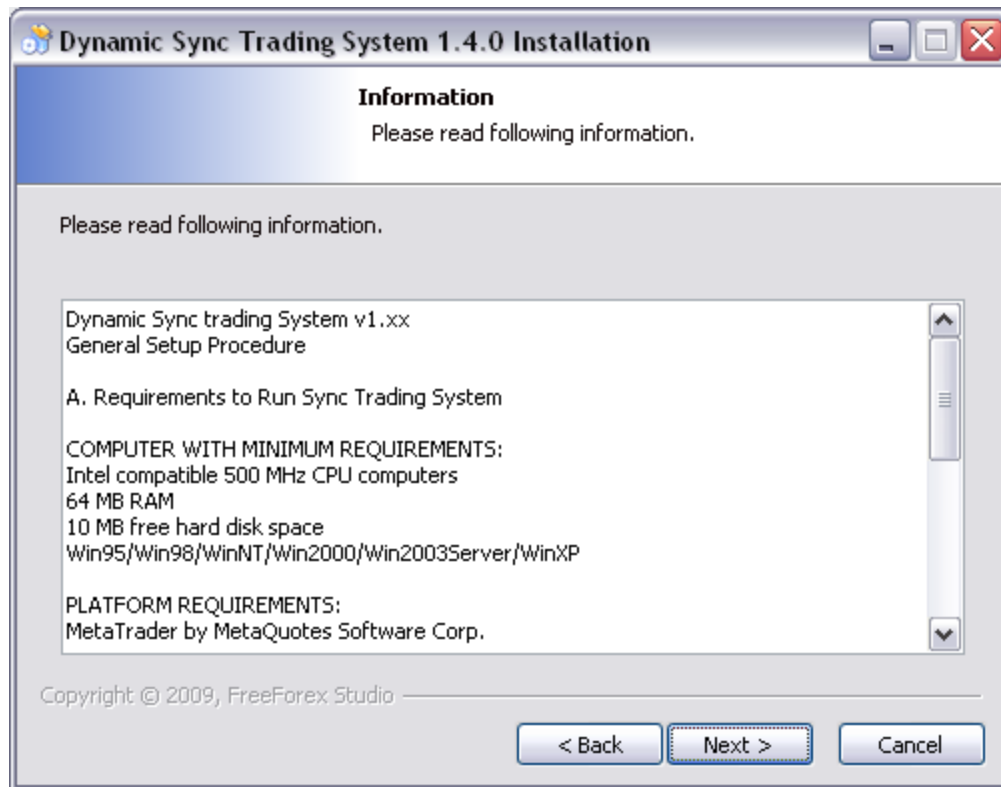

Insert the password and click "Next" to continue.

Please take a moment to read the minimum requirements to run Dynamic Sync Trading System.

The same are written on the first page of this installation manual.

Once done, click "Next".

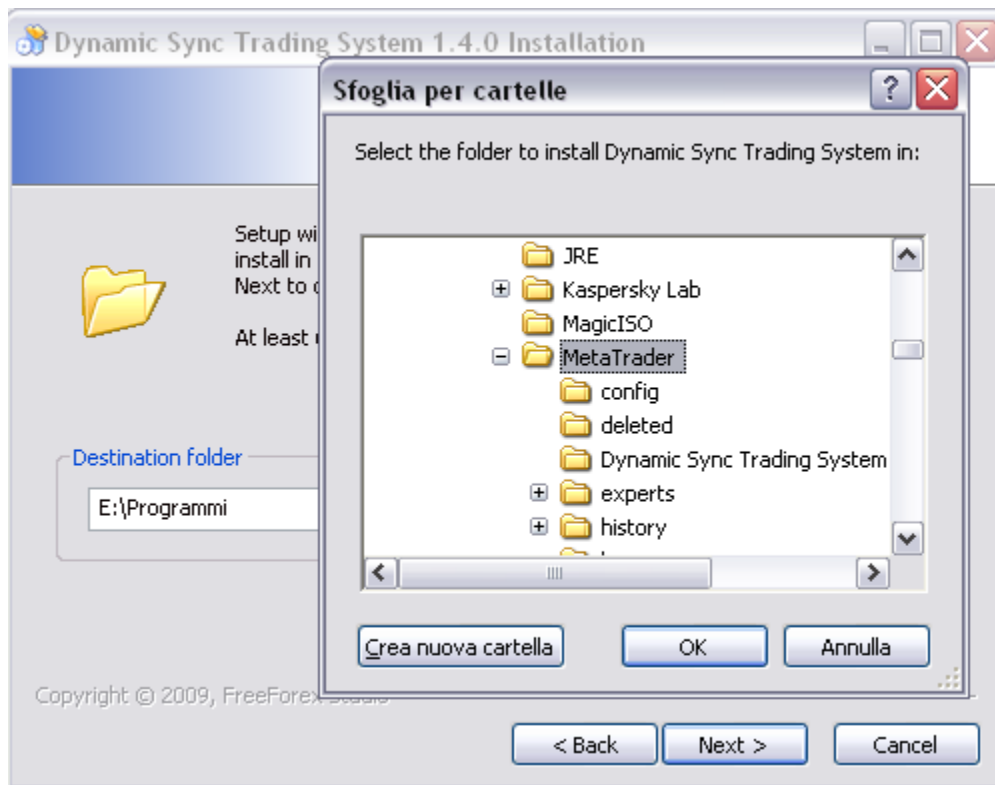

Choose the destination folder.

This is the main folder where you have installed your Metatrader 4 Client Terminal.

Normally the path is “C:\Programs\Metatrader 4\”.

Browse the “Programs” folder in your hard drive and choose your main installation folder, then click “OK”

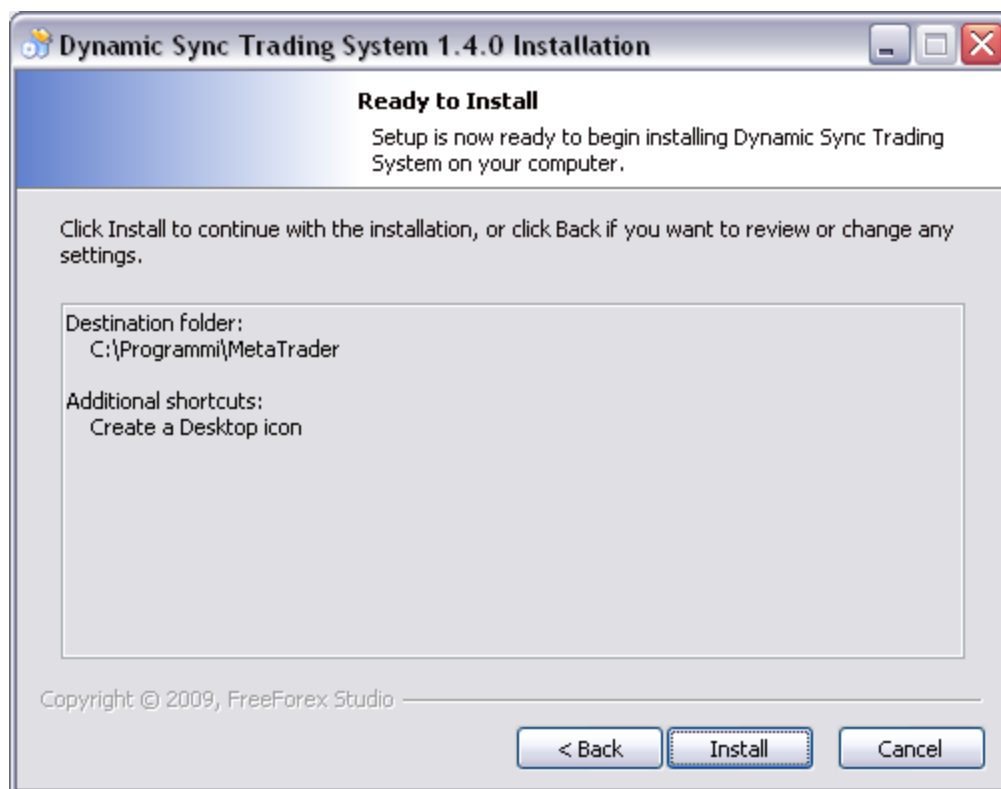

Take a moment to review your installation parameters. Check again you've set the right installation folder.

Then click "Install".

The installation progress window will open immediately.

Installation progress may require several minutes, please be patient.

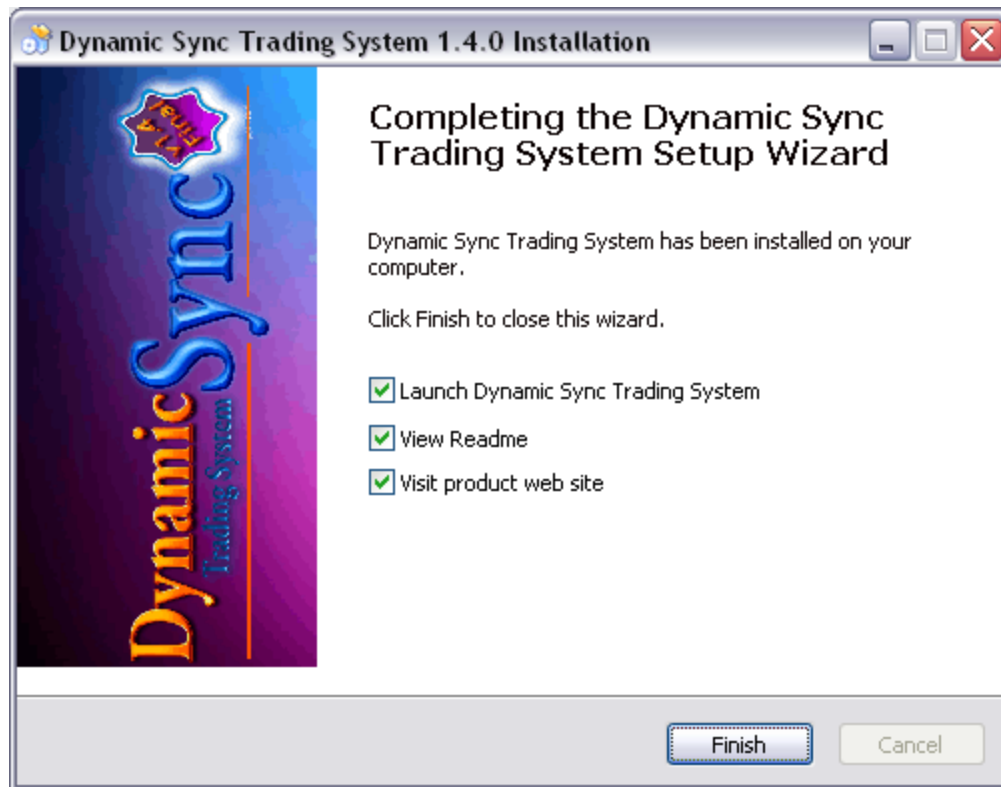

Done!

Please visit our site [www.forexsync.com](http://www.forexsync.com)

The installer will run your Metatrader Client Terminal after installation.

The Trader's Manual will be launched too.

**Many Thanks to install**

**Dynamic Sync Trading System!**
