

Danube Day Celebration

MANIFESTO

To people in Europe or anywhere in the world,
linked geographically, culturally or otherwise by the Danube.

To everyone,
who is connected to the Hungarus Community, friends of Hungarian culture.

LET US COMMEMORATE TOGETHER

*the 568th anniversary of the 1456 Battle of Nandorfehervar (present-day Belgrade)
at the 22th Danube Day Celebration
in Budapest on*

Monday, 22 July 2024

The name is symbolic in many ways, with events on the anniversary focusing on important memories of human history,
religious and cultural communities, and the preservation of our environment.

We want to raise awareness regularly by organising this celebration of the Danube and its surroundings,
the state of the waters today, and the need to protect them communally;
the forgotten memories of our ancestors, the "Royal Boatmen", the events of 1 July - 29 August 1521;
the present of our boatmen; the workers and victims of the waters; and of all those whose fate is connected to
the Danube and the waters.
