

NOTE

- *In an emergency you can add water alone to the coolant reserve tank, however it must be returned to the correct mixture ratio by the addition of antifreeze concentrate as soon as possible.*

CAUTION

If coolant must be added often, or the reserve tank completely runs dry, there is probably leakage in the system. Have the cooling system inspected by your authorized Kawasaki dealer.

Coolant Filter Clean

Before the winter season starts, have the coolant filter cleaned by an authorized Kawasaki dealer.

Coolant Change

Have the coolant changed by an authorized Kawasaki dealer.
