Behind the name:

A lot of people asking me: 'Why are you using Exile as a nickname?' My answer is: 'Because of my rebel sense!'

What does that mean? It means that I'm not considering myself as an artist, designer or something like that... Maybe creative is the best definition for what I'm doing.

I have come in contact with movies very soon in my childhood. Movies from between the late 70's - 80's made a powerful effect on my genre. Movies like Star Wars, Terminator, Top Gun or Easy Rider impressed me and promoted my interest to the Film-making. Soon I've realized that this is a hard but gorgeous Industry, especially the special effect were those what I payed my attention for. Therefore I learned a lot of Graphics Software like 3ds max or Photoshop etc. And got in touch with Computer Games too at my teenage.

The Digital Design or Art - doesn't really matter the name of definition - is what determines my days. It doesn't matter if we're talking about Movies or Games...

In addition to it I'm also interested in Bodybuilding, Fitness and riding Motorcycles!

Sincerely: Gergely (EXILE) Kiss
