### New season 2012

The Liga admin team is glad to announce another season.

New this season will be the groups.  
There will be two big division instead of three small ones.  
We know that not everyone likes this but considering the advantages and disadvantages we decided this is the best option.

We are not sure yet about the timing of the matches.  
If we stick to the 1 match in 2 weeks timing the season will probably (depends on the amount of teams that sign up) not be over before the summer holiday starts. The only way to end the season earlier is having 1 match each week (like in the cup). Let us know what you think about it in your sign up post.

There will be the possibility to play memomaps again. The mappool of the last season will stay the same for this season 2012

Start date: 30. april 2012

Sign up is open untill 15 april.

Good luck and have fun!!!

Your Adminteam
