BIO:

I think my artwork is not so good yet, but I try to practice, and I hope it's gonna be better. I like modern arts in music, in cinema and of course in painting. I take inspiration from Vasarely, Picasso, Dalí, Miro, Warhol, Vajda, and many more...

I think art doesn't have to mean something, it must show only things, and it must make feelings in the audience, no matter it is sadness, happiness, loneliness, or anything else...

My favourite elements are cubes, lines, circles, many colors and perspective. I've also got many favourite art styles, like cubism, dada, surrealism, op-art, abstract art, or post-modern. I like other art styles to, cause I think it is also beautiful and great, like renaissance, impressionism, expressionism, and naiv art.
