

```
List<double> szamok = new List<double>();
StreamReader f = new StreamReader(@"szamok.txt", Encoding.Default);
while (f.EndOfStream==false)
{
    string s = f.ReadLine();
    if (s.Trim().Length == 0) break;
    double d = double.Parse(s.Replace('.', ','));
    szamok.Add(d);
}
f.Close();
```
