1. Theatre

Create the theatre notice shown in the figure. The following instructions provide guidance for this. The size of the notice will be A5, therefore you should place two copies on an A4 size sheet with landscape orientation.

- Most of the text is located in the file `szinhaz.txt`. Create a new document with the name `plakat`, into which you import the text. Change the orientation of the document to landscape and set the margins on all sides to 1.5 cm.
- Create a table with 1 row and 4 columns. The column widths should be 11.8, 1.5, 1.5, 11.8 cm respectively, the line height should be exactly 17.5 cm. Set the table centered horizontally.
- Create the part shown in the example in the first cell. During formatting do not insert new paragraphs.
The font type is Arial or Nimbus Sans, and Times New Roman or Nimbus Roman. Font sizes are: 24 points, 12 points, 10 points and 8 points. While listing the performers, pay attention to appropriate indents.
- Complete the text with the part related to the approval of the notice as shown in the example. This part of the text begins 6 cm from the left margin of the cell and is centered within the remaining space. The dotted line for the signature of the headmaster is indented 0.5 cm on both sides. Font size is 8 points.
- The picture in the background is located in the attached file `diszlet.jpg`. Insert the picture, then change its scale to three times the original size both horizontally and vertically. Align the picture as shown in the example.
- Border the cell with an arbitrary ornamental border as shown in the example.
- Copy the content and the format of the cell into the 4th cell. (The two cells should be identical in every aspect.)
- Set the vertical line between the two cells in the middle as thin border.

40 marks

[illegible]

Example for the **Theatre** exercise:

**On 29th, 30th and 31st May, 2005,
as end-of-year gala performance,
the acting group of the
