COOKIE POLICY

COOKIES AND OTHER TRACKING SCRIPTS:

I may use cookies and similar technologies on the Services. Cookies are packets of information sent by the Website's servers to your web browser and then sent back by the browser each time it accesses the Website's servers.

A cookie is a small file which asks permission to be placed on your computer's hard drive. Once you agree, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site. Cookies allow web applications to respond to you as an individual. The web application can tailor its operations to your needs, likes and dislikes by gathering and remembering information about your preferences.

A cookie in no way gives us access to your computer or any information about you, other than the data you choose to share with us.

Some of the cookies may expire when the session ends and you exit your browser. Other cookies are saved on your computer's hard drive. Most web browsers automatically accept cookies, but you can usually modify your browser setting to decline cookies if you prefer. If you wish to block the Website's cookies, then please use the help button in your browser and follow the necessary instructions (accept or decline cookies). However, bear in mind that disabling cookies may complicate or even prevent your use of the Website, or certain features thereof. This may prevent you from taking full advantage of the websites.

I may use cookies for various purposes, such as to save you the need to re-enter your username and email address each time you use, to facilitate the use of the Website, to collect statistical information, to verify information, and to customize the Website to your personal preferences and for information security purposes.

I have never done any special cookie to be used on my websites.
